

SOMERSET HILLS SCHOOL DISTRICT

Acceptable Use of Computer Network / Computers and Resources Form

August 2011

Dear Parents or Guardians,

This document provides information regarding The Somerset Hills School District's (SHSD) processes for students to utilize electronic resources.

Part of the district's responsibility in successfully preparing all students for their futures is to provide them with access to tools they will use as adults. For example, the Internet includes communication and information networks that were originally created for university-level research. However, it has evolved into a significant learning tool for students of all ages.

These additional educational opportunities bring increased responsibilities. The district has established procedures and rules regulating use of SHSD electronic resources. Students are instructed to practice responsible equipment. Students are also directed to only access instructionally appropriate content through the Internet. SHSD also uses a well-developed filtering system to help prevent access to inappropriate content.

It is important that both you and your child read, discuss, and understand The Somerset Hills School District Policy and Regulation 2361 - Acceptable Use of Computer Network / Computers and Resources. This information can be located on the district's website as well as in each school's main office. Your signature below must be provided before your child is given access to SHSD electronic resources, including the Internet.

Thank you for your prompt attention to this matter.

Charles Young
District Information Technology Manager
